

## SHL Project Selection Conference 2018 in Berlin - Call for international Participants

Schüler Helfen Leben (SHL) was founded by high school students who brought relief supplies in the regions that were affected during the war in former Yugoslavia. Since 1998, SHL organizes the annual Social Day, which brings more than 80,000 high school students to work for one day and donate their salary to youth and educational projects.

The Project Selection Conference is the four-day youth congress where 250 students – and maybe you – are going to decide which projects will be supported this year with the Social Day funds.

What happens at the Project Selection Conference?

### Call for international Participants

In the wake last year's PAT (Project Selection Conference) it was decided to invite international activists to participate. This decision was made to elevate the status of internationals from "guests" to "participants". As such they are meant to participate as equals to their German counterparts. For the 2018 PAT, international participants are invited to attend a workshop meeting with young activists from Berlin which will take place the day before the PAT.

### Target Group

The workshop meeting targets young people and young adults from the age of **16 to 20** who engage in activism or other kinds of voluntary work with other young people in Southeast Europe. Moreover, participants **should preferably be engaged in coordinating capacities on a local level**. They should not be in leading positions (e.g. members of the board, presidents) on the regional, national or international level.
